DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 18 March 2002 has been entered.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the step of how (or what is doing) the presetting, selecting and pulsing is done must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 40-93 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 40, 55 and 86-88 are indefinite due to the recitation of "a pulsed laser system" stated within the preamble of the claim and in the second line of each claim.

This is indefinite, since the claims are viewed (or can be viewed) as having two pulsed laser systems. *The claims recite "presetting", "selecting", "pulsing", "providing"...etc. without the ** Claims 41-54, 56-85 and 89-93 are rejected on the basis of depending on an indefinite base claim.

** recitation of any means for providing such functions. It is not clear as whether these functions are mental functions or functions performed by a computer program.* ~~Allowable Subject Matter~~

5. ~~Claims 40-93 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.~~

6. ~~The following is an examiner's statement of reasons for allowance: Claims 40-93 are a method of operating a pulsed laser system that allows the pre-selection/selection of the repetition rate of the pulsed laser beam independent of the selection of the pulse shape by varying the pulse width of a Q-switched pulse by changing the energy storage~~
